# 3M™ Traditional Series Sun Control Films

Neutral 35, Neutral 35 Ext., Neutral 70,  
Nickel 50, Silver 15 Ext., Silver 20,  
Silver 35, Silver 35 Ext.

## The 3M Traditional Series

The metallised technology of 3M's Traditional Series reflects the sun's rays while allowing optical clarity to be maintained and rejects excess light to reduce glare. These films provide comfort at a great price. Also, depending on lighting conditions, rooms are protected against prying eyes from looking in. This series is available in the colours silver, nickel, and in a neutral version.

## Your benefits at a glance

- Excellent solar heat and glare rejection
- High level of comfort and energy efficiency at a competitive price
- Quick payback period of investment
- Protects furnitures from fading
- Daytime privacy

## Easy Application by 3M partners

3M Window Films are very easy to install using a water and soap solution. Full adhesion is reached after approximately 20 days at 18 °C (in dry conditions).

## Easy Cleaning

3M Window Films may be cleaned 30 days after installation using only ordinary window cleaning agents and avoiding the use of abrasive particles. Do not use rough sponges, cloths or brushes. Synthetic sponges, soft wipes or rubber squeegee cleaners are recommended.
