**"The reliability of a partner accustomed  
to the requirements of the Graphic Arts Market"**

## Akyprint® Lite

Lightweight and durable for optimum impact

The cost-effective and resistant bubble structure is the solution for screen or digital printing systems for better printability. In 2.5mm/450gr or 2.9 mm/600gr, white, black or color, one side printable, Akyprint® Lite is the lightweight solution that lasts.

## Akyprint® Smooth

DS Smith innovation for exceptional printing rendering

The bubble structure of Akyprint® Smooth sheets offers a wide range of two-sided printing possibilities, white, black or color, from 3.3mm /400gr to 9.6mm /2600gr for tough and durable applications. Akyprint® Smooth is the optimal solution for elegant and portable exhibit stands, premium packaging and permanent displays and signs.

## Less waste more recyclability

Our Akyprint® product line is 100% recyclable. Used Akyprint sheets can be recovered, recycled and re-purposed at the end of its useful life. By choosing Akyprint® your customers are actively protecting the environment...

## New!

**Akyprint® 100% made in the USA**

DS Smith Plastics has 30 years of experience manufacturing polypropylene sheets for the European market and now in the USA. Akyprint is also manufactured in four other DS Smith Plastics manufacturing sites located in France, Spain and Slovakia.
